FDA's Food Bioterrorism Recordkeeping Requirements

The Public Health Security and Bioterrorism Preparedness and Response Act requires that any domestic persons that manufacture, process, pack, transport, distribute, receive, hold or import food in the U.S.A. comply with the FDA's Food Bioterrorism Recordkeeping Requirements.

Quick Dry Foods, Inc. facilities, foreign and domestic will be in full compliance of the FDA's Requirement to Establish and Maintain Records, by the December 9, 2005 date of compliance.

These records will allow the FDA to identify the immediate previous sources and immediate subsequent recipients of food, including packaging, in order to address credible threats of serious adverse health consequences or death to humans or animals.
