CALIFORNIA PROPOSITION 65 Compliance

California's Safe Drinking Water and Toxic Enforcement Act of 1986, Health and Safety Code Section 25249.5 et seq, commonly known as "Proposition 65", requires that anyone who, in the course of doing business in California, knowingly or intentionally exposes an individual to a chemical known to the State to cause cancer or reproductive toxicity, must first give clear and reasonable warning of the presence of such chemicals. Pursuant to this warranty agreement, responsibility for warning consumers (in the case of consumer products) is that of the manufacturer or packager, and not the retailer.
